DR. SHIRLEY C. AGRUPIS

University President
Mariano Marcos State University
City of Batac 2906 Ilocos Norte

Dear Ma'am;

This is in regards to my interest in applying for Information Technology faculty member recently posted on Mariano Marcos State University official page. I would like to apply for this position and I can join immediately after recruitment.

As an upcoming graduate of Bachelor of Science in Information Technology at Mariano Marcos State University, I have developed skills in programming, web development, and mobile application development. This knowledge has enabled me to build several projects and allowed me to continuous expand my abilities on the field of information technology. During my internship at MMSU Scheduling Project - CAS, I got to have an experience on understanding how software development works along with the procedures that are followed in order to produce and launch a software. And on our last academic year, we built a virtual reality application project that preserves a number of selected artifacts in the Museo MMSU, and we used this project on a national competition hosted by Smart which we ended up as top 50 finalist.

With this, it is my goal to combine my learning and experiences to be enthusiastic and a role-model instructor that would lead me to be a productive, effective and efficient team member of the organization. To further achieve the school's mission and vision, I would be very willing to undergo such trainings as much as possible.

Enclosed is my resume for your reference. I would be very willing to appear for an interview to discuss further about my application. With this, rest assures of my highest competence and dedication to this noble task. Thank you very much for the time, kind attention and consideration.

Sincerely,

Charles Chille G. Abletes
